

ISAAC TENNANT

39 Grammar School Yard, HU1 1SE

0756517992 ♦ isaac0798@gmail.com

EDUCATION

University of Hull

July 2016 - July 2019

TECHNICAL STRENGTHS

Computer Languages

Javascript, PHP, Ruby, Swift

Frameworks & Tools

React, Node, Symfony, Ruby on Rails, AWS, SQL, NGINX

EXPERIENCE

Keyzo IT Solutions

June 2019 - Present

Software Developer

- Updating our legacy application, implementing modern libraries/frameworks such as react and using best practices when adding new functionality.
- Building multiple RESTful APIs in our backend using symfony as well building numerous node micro-services that interact with AWS Services(S3, Lambda, SQS), SFTP servers, Oracle DB.
- Learning and utilising multiple design patterns including MVC and OOP through the Symfony framework.
- Adding typescript into the main project via webpack
- Implementing new features on our mobile application using Cordova, and an SQLite table.

PROJECTS

- isaactennant.com: A simple static website built using create-react-app to understand the concept of components and the basics of react
- arsenal-transfer-tracker: A ruby on rails application, which is a simple api which scans the arsenal website for any new transfers based off keywords and sends me a message if theres any news
- monzo-money-tracker: A react app which is powered by Monzo's api, which allows me to look at my spending in a more convenient way than the monzo app
- ruby-git: A few ruby scripts to help quicken up my git experience
 - precommit: A git hook which writes to a file about the most recent git commit and how long it took(helps with the timesheet!)
 - precommit: A set of custom git commands which speeds up pulling/pushing branches
- Dissertation: Full Stack iOS app, where users can find parking places and prices for parking at the University of Hull, using Swift/Firebase/Python(Flask)

EXTRA-CIRRICULAR

Learning Primarily Ruby and other languages on HackerRank

Watching/Reading material about programming processes/technologies. I am currently reading Clean Code: A Handbook of Agile Software Craftsmanship by Robert C Martin
